- (i) Ratios have been computed using the formula as defined in the respective Debenture Trust Deed.
- (ii) This covenant pertains to 30+ PAR [portfolio more than 30 (thirty) days, plus the gross amount of loans written-off over the twelve-month period], divided by the Company's Gross Loan Portfolio to be lower than the specified threshold as per the respective agreements. Accordingly, this had led to breach of covenant, as the Company had written-off ₹886 crore during FY22-23 which is driven by higher NPA and SMA buckets at the start of the year primarily due to COVID-19 impact. Management is confident with current performance continuing the covenants will come well within the threshold. The company PAR excluding written off is 2.85% as on March 31, 2023.
- (iii) The Company adjusted return on assets was below threshold limit of 0.50% for the year ended March 31, 2023 primarily due to higher impairment cost driven by higher NPA and SMA buckets at the start of the year due to COVID-19 impact. The adjusted return on assets would be 1.25% if computed for the quarter ended March 31, 2023.
- (iv) The Company was holding cash and cash equivalents of ₹810 crore as on March 31, 2023 and did not have any cumulative mismatch across all ALM buckets.
- (v) The definition of tangible net worth as per the terms of respective debenture trust deed requires certain deductions to be made from the net worth calculation. The Company's tangible net worth was ₹2,651 crore as on March 31, 2023 as against the net worth of ₹3,043 crore. This was higher by ₹100 crore over the tangible net worth of ₹2,551 crore as on December 31, 2022 (near the date of issuance of such debentures).
